Honorable Mayor, City Council Members, Citizens and Staff of Pleasant Grove City:

We are pleased to submit to you the budget for the 2023-2024 fiscal year. This budget is the culmination of many hours of work which began with the budget retreat in February. The budgets are compiled after time with each department, Mayor, and City Council along with evaluating the current and perceived future economic environment. Each year, as we go through the budgeting process, we face a difficult task to balance operating and capital needs and match those to our available resources. Unfortunately, we are never able to fully fund all worthwhile programs or projects. Our aim is to set priorities that best allocate the available funds. In summary, this budget outlines a forward-thinking and sustainable path to carry us through the upcoming year. Our budget process is intended to provide for Pleasant Grove's current needs, while maintaining a long-term focus, all in a public, transparent manner. This budget document provides Pleasant Grove residents with key information for understanding the allocation of revenue sources and added clarity of the vision and directions of the city in relation to these funds.

Commercial and residential growth continues in the City. This continued growth brings opportunities as well as challenges. More residents and businesses increase pressure on the City infrastructure, personnel and operational needs of the City. This budget reflects investments in parks, roads, utilities, personnel, and operational needs. These investments need to occur now to prepare for Pleasant Grove's future.

This year's budget forecasts General Fund revenues (not including transfers/fund balance) of \$28,367,371 and total governmental revenues of \$35,920,985. Additionally, revenues from proprietary funds, primarily from City-operated utilities are estimated at \$20,245,340. The City realizes the importance to properly care for and expend these funds in a responsible and transparent manner. This budget document is intended to provide the public with information towards the achievement of this goal.

The following sections will emphasize specific, key issues and how they are addressed in the upcoming year's budget.

Revenues

The revenue and taxation section of this budget document gives detailed information related to how the City derives its revenues. We encourage you to review that section. Sales tax revenue continues to remain positive both for statewide sales and for sales occurring in Pleasant Grove. FY 2024 sales tax revenues are estimated to be 13.1% higher than the amount received in 2022, and 3.6% more than 2023 estimates. The city is forecasting revenue to be \$9,644,364 for FY2024. The city, residents and businesses continue to support the physical and economic changes to the city.

As part of the FY2024 budget process, the City Council proposed a small property tax increase to fund a portion of the debt services for the Cook Family Park, competitive police wages, full-time firefighter and library positions. The proposed increase will generate \$733,171 yearly, with a cost to the average household of \$4.72 per month. An open house and required truth in taxation public hearing were held, with the increase being adopted on August 1, 2023.

Enterprise funds continue to need more monies for operational and infrastructure needs. Water will increase by 2% an average of \$.70 per month, Secondary Water will increase by 9.8% an average of \$3.84 per month, Storm Drain 31.2% an average of \$5.31 per month, Waste .2% and Garbage and Recycling 5.5% an average of \$1.00 per month. The Secondary Water Fund increase was needed to fund the State mandated installation of meters on the pressurized irrigation system and Storm Drain for infrastructure construction at the Pipe Plant Development and Outfall to the Lake Projects.

It is often difficult to forecast revenues, during the budget adoption process and a 60-day timing delay for various revenue sources.

Capital Equipment

The City has emphasized in recent years the importance of adequately funding capital equipment to maintain properly functioning equipment. Keeping up with equipment maintenance and replacement will emphasize performance and safety and, in the long run, be more cost efficient. Pleasant Grove already has a plan in place to replace public safety equipment in a reasonable rotation. In the upcoming budget year, the city has provided funding to continue to support the replace and rotation of fleet vehicles, computer, and recreation equipment through an ongoing lease program.

Employee Costs

For a city of over 39,000 residents, Pleasant Grove has a relatively small work force. Without question, the ability of Pleasant Grove to provide quality services to its residents is centered on maintaining a quality workforce. This budget includes a 6% pay increase for all full-time City employees and \$127,299 allocated to part-time/seasonal employee wage increases. The pay increases were needed to keep the city competitive in attracting skilled, quality employees with the competitive job market due to low unemployment and wages increases over the past few years.

The City Council added numerous, needed positions this year as part of the budget process. They are as follows: Streets Position, Cemetery Position, added additional operational monies for to cover vehicle expenses related to the increase in fuel prices, and technology needs in various areas.

Health insurance premiums is always a major factor in personnel costs. The city was able to remain with their current health plan provider with a 0% increase, and to continue to keep City employee's contribution to a limited out of pocket amount. The city is in their second year with Beam Dental that provided no increased premium.

I believe we have maintained a balance between taking care of the City's employees and not allowing personnel costs to consume too much of the city budget. The target is to keep personnel expenses at 75% of the General Fund expenses, this will continue to be a challenge each year as health insurance premiums and other employee benefits continue to increase.

Capital Projects

General Fund transfers in the amount of \$4,576,500 (\$1,500,000 unallocated) were assigned in FY2023 for capital project needs. These monies were made available by General Fund Balance anticipated savings from FY2023, and excess revenues received during FY2023. Supplemental requests are submitted by the department directors, administration, and council each year based on needs and desires. The City Council and Administration spent a great deal of time and effort with City staff to identify the greatest needs and allocating the resources accordingly.

Other capital-related expenditures will occur to fund repair and improvements to the City's utility infrastructure. These projects include: \$3.5 million of water infrastructure projects, \$1.2 of sewer projects, and \$825,000 of storm drain infrastructure.

Budget Planning and Management

An integral part of the budget process is the adoption of and adherence to the City's *Budget Management Guidelines*. These guidelines are adopted with the budget and set targets for areas such as: debt management, personnel costs, fund balance. They also provide direction to assist the City in compiling the budget according to sound fiscal management practices.

Included in the budget is a section providing 5-year projections for all enterprise funds. The purpose of these projections is to provide a forward-looking analysis at the City's utility functions. By closely monitoring future operational, capital, debt service, and other expenditures; the city can more accurately evaluate and align current and future utility rates.

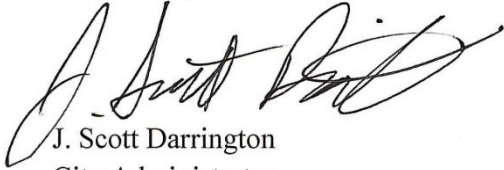

The City continues to work with Lewis Young Robertson & Burningham, Inc. to help the city establish a comprehensive financial sustainability plan (CFSP) and funding analysis for the General Fund. The CFSP is a means to link the community-based goals with implementation strategies over a long-term planning period. The CFSP is mutually a written implementation plan, an updateable management and communication tool, as well as a decision-making process/tool used by staff and elected officials. The draft analysis was provided to staff in June 2023. Staff will be reviewing and making final changes and recommendations before the final report is presented in early 2024.

Administration implemented a new mission/vision/value statement for the organization. The roll out has been completed city-wide, the administration and each department has and will continue to work in establishing clearly stated goals and objectives for their division/department which provides objective measures of progress towards accomplishing the government's mission as well as goals and objectives for specific departments and programs.

Conclusion

The city remains committed to increasing our tax base by having economic development be our #1 priority. This future tax base will allow the city to update current amenities and possibly add further amenities in the future. In collaboration with the Cook Center for Human Connection and the City of Pleasant Grove, "The Ruth and Nathan Hale Theater" is being built on the campus of doTerra. The Theater will be a beautiful addition to Pleasant Grove. Our success would not be possible without the support and pride that the citizens and employees continue to provide in making our community better in many ways.

Respectfully submitted,

Informational Section

Community Profile

Geography

Pleasant Grove is a suburban community located in the northern portion of Utah County. Sitting at the base of Mount Timpanogos, in the Wasatch Mountain range, the City is located in a beautiful setting close to numerous outdoor recreational activities. Pleasant Grove is located within a short driving distance to two urban areas, 36 miles south of Salt Lake City and 11 miles north of Provo. The total area of Pleasant Grove is 9.17 square miles.

Form of Government

Pleasant Grove operates under a six member council form of government, where powers are vested in a council consisting of six members, one of which is the mayor. The mayor is the chair of the council and presides at all meetings. Except in limited circumstances, the mayor is a nonvoting member of the council. The mayor does vote on whether to appoint or dismiss a city administrator, or in case of a tie vote of the other council members.

The mayor is the chief executive officer of the City. This means that all employees of the municipality report to him or her. The council is the legislative body and exercises the legislative powers and performs the legislative duties of the municipality by ordinance or resolution, as may be appropriate.

Pleasant Grove History

After initial settlement by Mormon pioneers in September 1850, Pleasant Grove was incorporated on January 19, 1855. The first municipal election was held in May 1855 and Henson Walker took office as the first Mayor.

The city was originally called Battle Creek, named for a battle which took place near there in 1849 between settlers and a small band of Ute Indians. The settlers later decided they needed a more uplifting name and began calling their town Pleasant Grove after a grove of cottonwood trees located between Battle Creek and Grove Creek, near the current-day intersection of Locust Avenue and Battle Creek Drive. A monument with a plaque describing this battle is located at Battle Creek Park, at the mouth of Battle Creek Canyon.

Because of conflicts with Native Americans, the settlers were instructed to build a fort for protection which occupied 16 city blocks. At the time, homes were built inside the fort. Although the fort no longer stands, memorial cornerstones were erected by local historians. A meeting house and school house were also constructed to meet the spiritual and educational needs of the people who came to Pleasant Grove.

Main Street circa 1950

Life was difficult. The settlers faced famine and hunger. They had to rely on one another to survive winters. The meeting house was also used as a storehouse, but a fire brought the building and its contents to the ground without enough time to re-stock before winter came again.

Life wasn't only filled with hardships, however. The people often met socially and created an annual festival – Strawberry Days – named for the abundant strawberry crop every summer. First held in 1921, Strawberry Days continues to this day as the longest continuing community celebration in Utah.

Budget Management Guidelines

City management, under the direction of the Mayor and City Council, has established guiding principles to be used in the preparation of the City's annual budget. These principles assist the City in keeping budget levels within acceptable parameters. They also can be used to identify areas in which the City needs to improve and assist in the establishment of specific goals related to matters such as debt levels, fund balances, and personnel expenditures. Each principle is listed separately below.

Fiscal Procedures. Pleasant Grove's accounting and budgeting procedures are consistent with those established by the State's Fiscal Procedures Act, the Governmental Accounting Standards Board, and guidelines recommended by the Government Finance Officers Association. The City will undergo an independent audit each year and will work quickly to remedy any findings identified through this audit.

Investment Policy. All investments will be made in strict conformance with the Utah Money Management Act, which governs the investment of public funds. In its investments, the City seeks to maintain liquidity so that cash is available as needed for operating expenses. The City seeks to maximize its yield from investments, but not at the expense of security and liquidity.

Fund Balance. Fund balance consists of residual amounts held in each fund that can be used for future expenditures. City management realizes the need to maintain adequate reserves as a resource for large, emergency expenditures. Therefore, the City will strive to maintain a minimum 15% of its general fund balance in reserves. Also, all utility funds will strive to maintain a cash balance of 180 days of annual operating expenditures.

Debt Affordability. Utah law establishes limits on the amount of general obligation debt not to exceed 4% assessed property valuation. Additionally, Pleasant Grove has established a maximum of 6% of general fund revenue, which can be budgeted for annual debt service.

Utility Fund Budgets. The maintenance of safe, reliable, and affordable service is required for City utilities on a long-term basis. Therefore, the City will maintain 5 year prospective budgets for culinary water, pressurized irrigation, sewer, and storm drain budgets. By consistently looking forward in the analysis of revenues, expenditures, debt service, and capital costs the City will be better able to provide the type of services expected by residents. Capital costs include both the installation of new infrastructure and the replacement of worn-out infrastructure.

One-Time Revenues. Utilizing one-time revenues for operations puts future operations at risk. Pleasant Grove will utilize one-time or temporary revenue to fund capital projects or to make other nonrecurring purchases.

Emergency Management. City management realizes the potential financial crisis that can occur in association with a natural disaster or other emergency situation. In addition to maintaining the City's General Fund balance at 15% of revenues, procedures and guidelines have been established to track emergency expenditures in a way that will provide the City maximum cost recovery, should funding be made available.

Capital Replacement. Regular maintenance and replacement of capital equipment and facilities will provide greater services to City residents and save money in the long run. Therefore, the City will set a target of 4% of General Fund revenue to fund a capital replacement fund. Additionally, any unspent funds from the maximum established by debt affordability guidelines may be used towards the capital replacement fund.

Personnel Planning. Personnel costs are by far the largest expenditure in the General Fund. The City must manage personnel costs closely in order to maintain a properly paid workforce without allowing costs to become unmanageable. A guideline has been established that would set a target of approximately no more than 75% of general fund expenditures to be spent on personnel costs.

Council Reports. In order for the City Council to properly fulfill their duty as elected officers, regular reporting must be provided. City staff will issue a report monthly to the City Council, which provides information on City revenues, expenditures, and a comparison to budget.

Annual Reports. The City will prepare an annual financial report as well as an annual budget report, which will be posted to the City's website. Additionally, a summary of these reports will be prepared for the purpose of providing the public an easy to read report in "plain language" expressing the financial position and activities of the City.

Balanced Budget. Utah State law requires each budget to be balanced. This is defined as all anticipated revenues must equal expenditures. Use of fund balance can be used as an anticipated revenue as long as funds are available.

Budget Process

Pleasant Grove City follows Utah State laws that define the budget process in order to ensure effectiveness and protect taxpayers and city officials. The budget process is an extremely important element of the City's financial planning, control and evaluation. It also provides an opportunity for citizens to engage in the governmental process and be heard by their elected representatives.

The City develops budgets for each individual fund. Budgets are appropriation estimates of future expenditures, and therefore, may require occasional adjustments during the fiscal year – amendments. The budget process consists of three main phases: (1) preparation, (2) adoption, and (3) amendments.

Preparation

Under the direction of the City Finance Director, budgets are prepared for general, special revenue, debt service, enterprise funds, and capital projects funds. Additionally, budgets are developed for individual departments and programs. Budget workshops and budget work sessions play an important role in the initial development and analysis that goes into creating each element of the City's total budget.

Adoption

Utah Code Sections 10-6-111 & 10-6-113 outline that a tentative budget must be presented to the city council by the first regularly scheduled council meeting in May. At that meeting, the council reviews and adopts this tentative budget and establishes a time and place to adopt the final budget.

Utah Code Section 10-6-112 outlines that the tentative budget becomes public record, available for inspection for at least 10 days prior to the adoption of the final budget. The City holds a public hearing to discuss the tentative budget prior to the adoption of the final budget. Final discussion and adjustments are made by the city council after the public hearing. The final budget must be adopted by the city council before June 30 (Utah Code Section 10-6-118).

Utah's property tax system is governed by Utah Code Section 59-2-919, 59-2-919.1 & 59-2-919.2 and is commonly referred to as "Truth in Taxation". The objective of these rules is to keep property taxes from rising simply as a result of increasing property values. Each year the Utah State Tax Commission determines each taxing entity's "Certified Tax Rate." If the taxing entity assesses a property tax higher than certified rate, the entity must advertise that rates as a increase. The entity must notify taxpayers , hold a public hearing, and adopt the rate by September 1.

Amendment

The procedure for amending the budget is essentially the same as for adopting the budget originally – adoption by the city council. As indicated by Utah Code Section 10-6-128, final amendments by the city council can be made as late as the last day of the fiscal year.

Pleasant Grove City FY2024 Budget Timeline

December
2022

- Review revenue forecasts
- Analyze FY2022 audited financials for available capital monies

January 2023

- Supplemental requests for capital and operational due from Directors
- Request for medical, property & liability insurance increases

February
2023

- February 3 – Budget discussion with City Administrator, Directors, Mayor & City Council
- Supplemental and capital improvement summary reviewed with Directors
- Preliminary insurance proposals
- Rate and fee change proposals due

March 2023

- March 7 – Capital budget discussion
- March 21 – Operating budgets/Utility increase discussions
- Update revenue forecasts

April 2023

- Proposed budget worksheets are prepared based on recommendations from March budget work session
- Final review of capital/operational requests with directors and administration
- April 11 - Utility/Fee budget discussion
- Finance to prepare final proposed documents to be presented to Municipal Council

May 2023

- May 2 – Tentative presented and adopted by the Municipal Council
- Additional Budget Discussion(s) as needed

June 2023

- Budget to be adopted per State Code if not holding a Truth in Taxation hearing by June 30
June 20 – Adopted a Certified Tax Rate

July 2023

- Truth in Taxation open house July 25

August 2023

- Budget adopted August 1

October 2023

- Submit to GFOA for certification

Revenue & Taxation

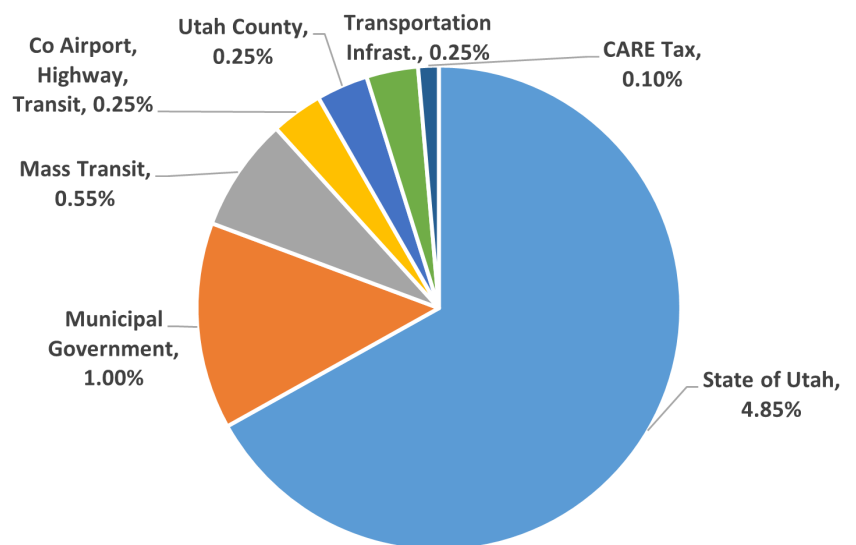

This description is offered to provide a more detailed analysis of the origin of how Pleasant Grove City receives the revenues needed to provide services to its residents. Government finances can be complex, since revenues originate from a variety of sources and often are restricted in use. The intent of this section is to present the City's financial structure in a straightforward and transparent manner. The City receives revenues from several types of activities. These include general activities, special revenue activities, and enterprise activities. Each of these revenue sources is described below.

General Activities

General activities include those functions most typically associated with a municipal government. These include police, fire, streets, parks, recreation, and community development. While some services provided by these functions are associated with a fee for use, the vast majority are not. Rather, they are funded through various taxes collected by the City. The three largest sources of tax revenue are sales tax, property tax, and franchise tax.

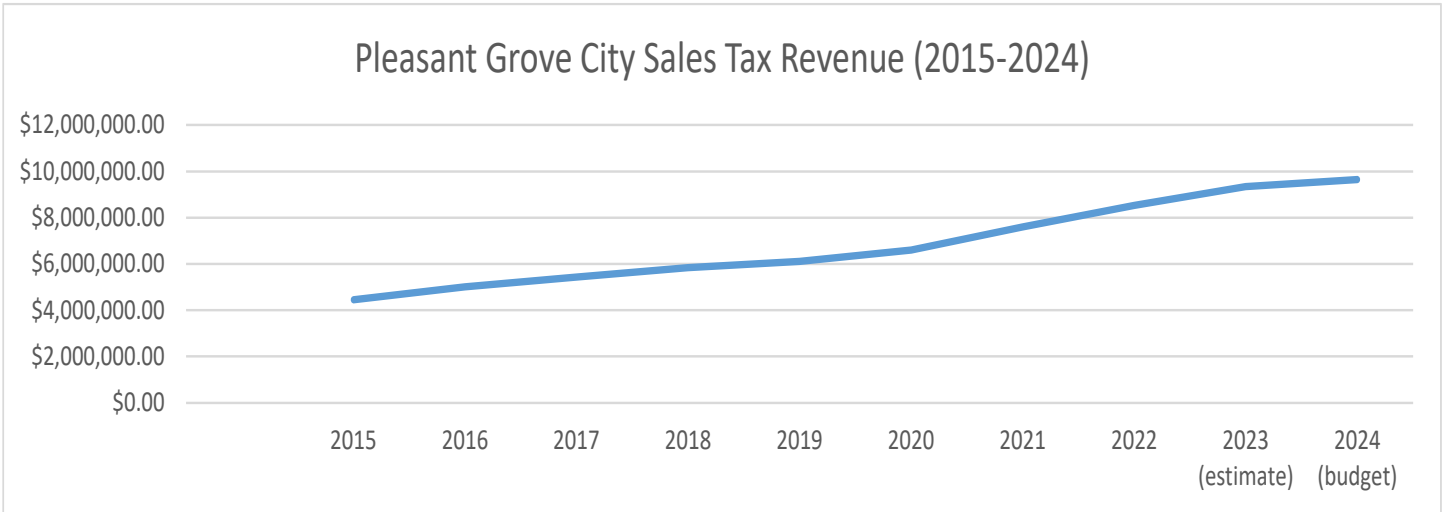

Sales Tax. Sales tax is the largest source of revenue for Pleasant Grove City. Sales tax accounts for 58% of total tax revenue and 51% of total General Fund revenue. The collection of sales taxes in the state of Utah is administered by the Utah State Tax Commission, and the distribution formula is determined by the Utah State legislature.

All taxable sales that take place in Pleasant Grove are taxed at a rate of 7.25%. 1% of the 7.25% is distributed to local taxing entities. According to the formula established by the State, one-half of this 1% is distributed directly to the local taxing entity in which the sale occurred. The other half is put into a statewide pool and distributed based on the population of all local taxing entities. Pleasant Grove has a large population relative to its taxable sales and thus receives in excess of \$1 for every dollar of sales tax collected in the City. For the year ending June 30, 2023, Pleasant Grove received \$1.20 for every \$1.00 of local option sales tax collected in the City.

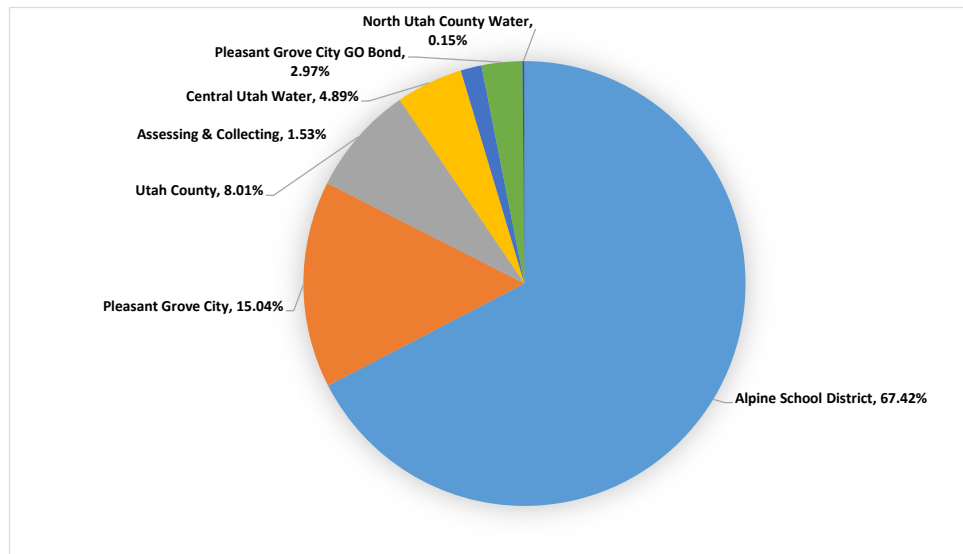

Since 2015, the City has experienced growing sales tax revenue each year. 2024 sales tax revenues are estimated to be 13.1% higher than the amount received in 2022, and 3.8% more than 2023 estimates. The average percentage growth in sales tax revenues from 2015 to 2024 was 9.4%. For the 2024 fiscal year we are forecasting sales tax at 3.6% increase from FY2023 estimates. Sales tax revenue collections, for the ten years, are shown on the graph below.

The City is forecasting sales tax revenues of \$9,644,364 for FY 2024, and FY 2023 estimates at \$9,294,848, significantly higher than FY2023 budget of \$8,550,356. The FY2023 and FY2024 estimates were conservative at the time the budget was prepared and presented for formal adoption. Revenues also lag 60 days.

Pleasant Grove’s second largest source of revenue is property tax, which represents 24% of total general fund revenue. Property tax is a much more stable revenue source than sales tax, and thus year-to-year fluctuations in revenue are relatively small. Property taxes are distributed to school districts, municipalities, counties, and special districts. The chart to the right illustrates the relative percentage of each Pleasant Grove resident’s property tax distributed to individual taxing entities.

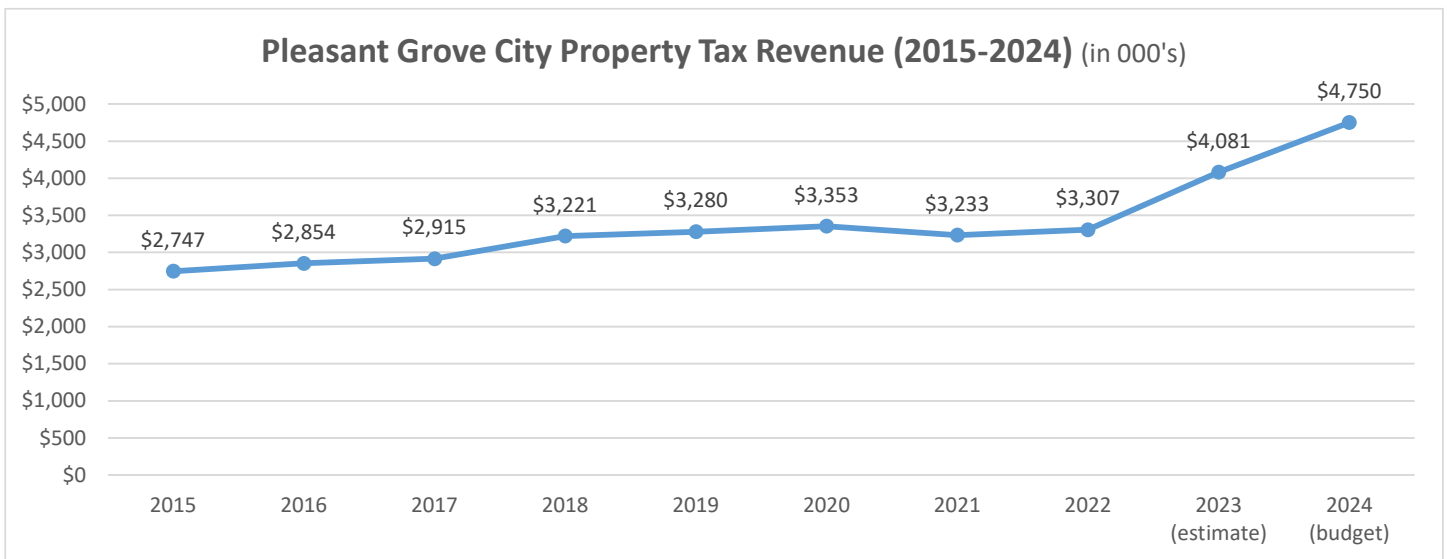

For the 2023-2024 fiscal year, Pleasant Grove taxpayers paid property tax at a rate of .85% of the taxable value their home. Pleasant Grove City will receive 18.01% of this tax payment with the rest going to Utah County, Alpine School District, and other special districts. Utah law allows a 45% exemption in taxable value for a taxpayer’s primary residence. Thus, Pleasant Grove City would receive property tax totaling \$439.40, \$72.44 of the amount cover prior general obligation bonds, from a home with an average market value of \$542,000.

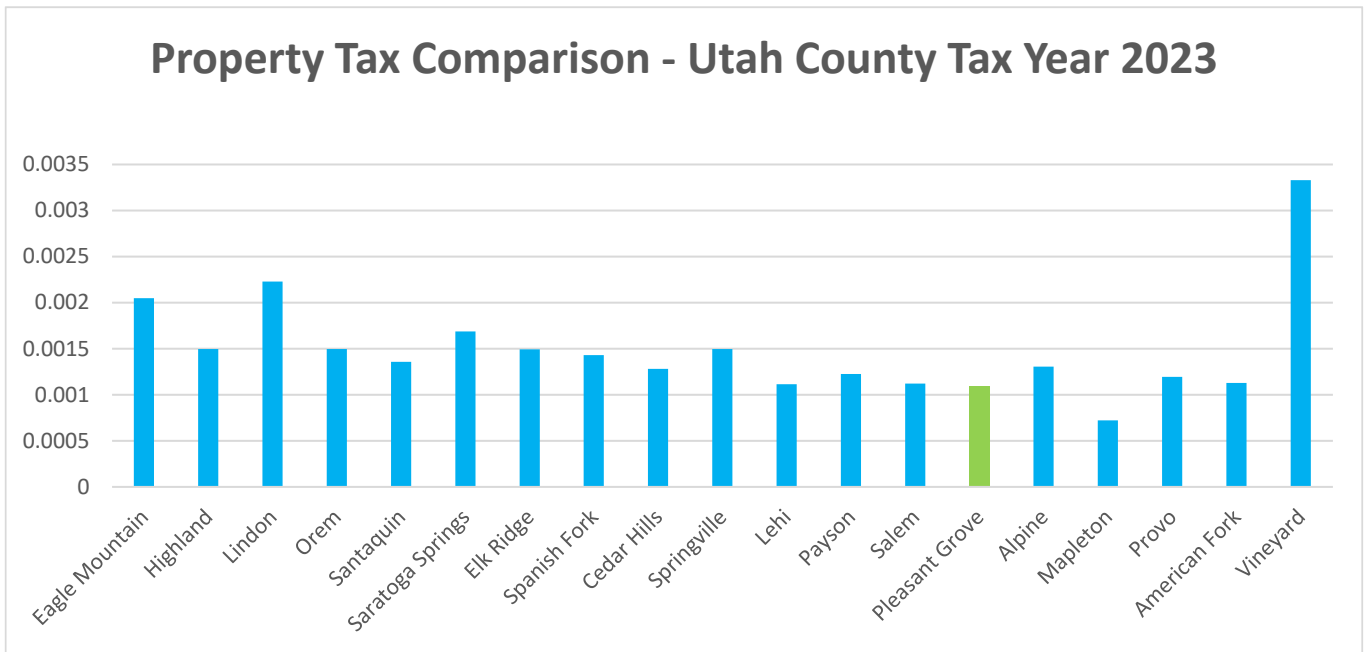

In order to understand property tax in Utah, it is necessary to understand a section of Utah State Law known as “Truth in Taxation”. The intention of “Truth in Taxation” legislation is to keep property taxes at a stable level despite what are sometimes wide fluctuations in real estate values. The calculations involved can get extremely complex, but the primary focus is to provide local governments a stable revenue source.

Utah County is responsible for administering property taxes within the County. Every June, the County submits a “certified tax rate” to all taxing entities within its boundary. This is the rate that would provide the entity with the same amount of revenue as the previous year plus an additional amount for any new growth, which occurred within the entity’s boundaries during the previous year. The certified tax rate does not provide for additional tax revenue due to increased valuation of existing property or for cost inflation. If an entity chooses to adopt a tax rate higher than the certified rate, Utah law has very specific requirements for newspaper advertisements and public hearings, from which the name “Truth in Taxation” is derived.

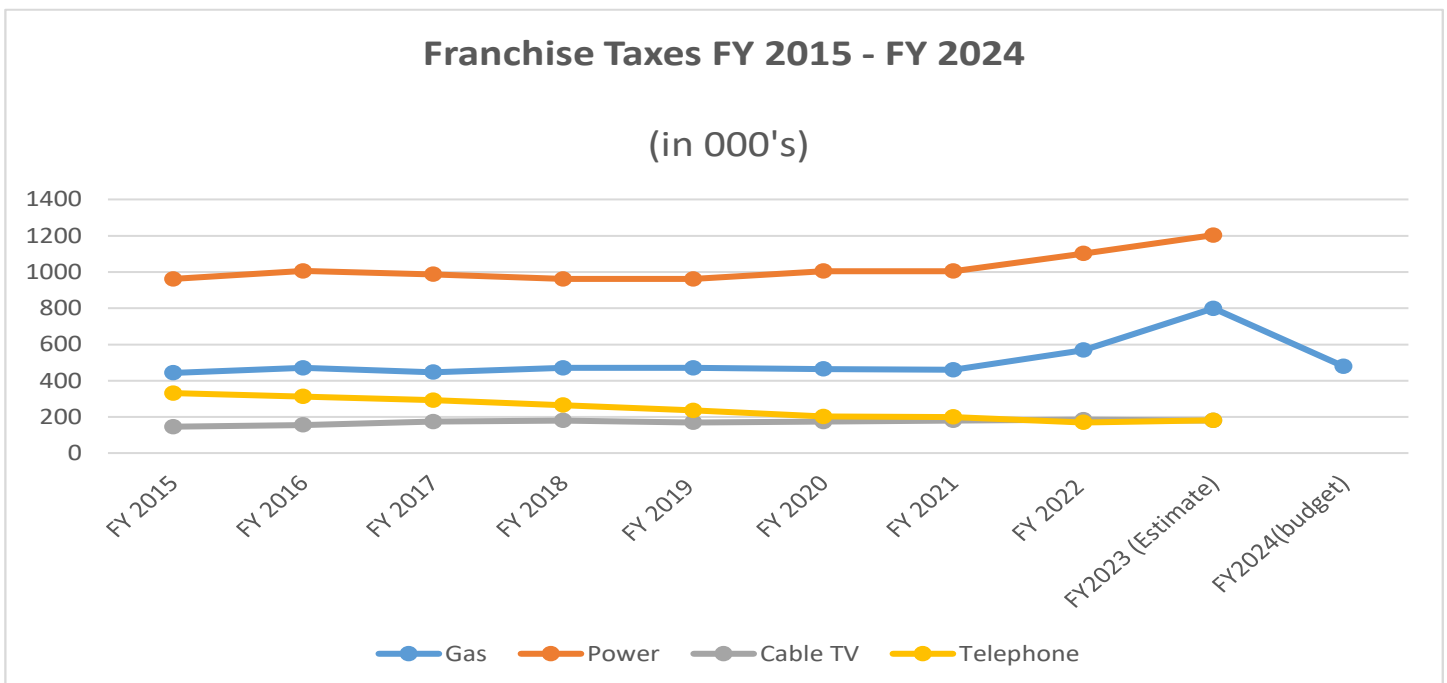

These regulations tend to keep property tax revenues steady in times of property inflation and property deflation. Absent any action from the taxing entity’s governing board, property tax rates will decrease during times of increasing property values and will increase in times of falling property values. However, entities must periodically evaluate and sometimes increase rates above the certified rate in order to add services or just to keep pace with inflation. As the graph below illustrates, property tax revenues have remained steady.

Below is a chart showing the tax rates for cities in Utah County for the 2023 tax year. The average property tax for the cities shown below is .001278 and the median is .001153. The City held a truth in taxation hearing on August 1, 2023. The Council passed a 18.2% increase to the certified tax rate. Pleasant Grove's rate for the 2023-2024 fiscal year is .001474.

The City also collects franchise taxes from utilities which use the City's infrastructure right-of-way. The four utilities on which this fee is collected are: Natural Gas, Electricity, Cable TV, and Telephone. State law limits the amount of the franchise fee for natural gas and electricity to 6% and the amount charged for telephone usage to 3.5%, which is the amount charged by the City. Cable TV is assessed a franchise tax of 5%. As shown in the graph below, franchise tax revenue has stayed flat or a slightly increased based on the number of customers in the City.

Special Revenue Activities

Certain revenues received by the City are collected for a specific purpose and are accounted for in a separate fund. These Special Revenue funds allow the City to closely monitor the revenue and expenditure activity of these specific activities. The City has established the following special revenue funds.

E911. The City contracted our emergency dispatch operations for both police and fire services to Central Valley Dispatch in March 2020. The city provides funding from the General Fund, to pay for emergency operations. The E911 fees collected by the Utah State Tax Commission now go directly to Central Valley Dispatch.

Recreation. The Pleasant Grove Community Center provides a venue for fitness facilities and programs as well as enrichment activities. Revenues come from membership fees, daily use fees and program participation fees. Pleasant Grove Recreation also provides numerous adult and youth sports programs, for which a participation fee is charged. These fees are used for staffing and supplies used to run the programs.

Cultural Arts. Pleasant Grove City is home to several outstanding arts programs. These programs include the Children's Youth Theatre, Children's Choir, PG Players, and the Pleasant Grove Orchestra. Revenues come from participant tuition and patron admission fees. The revenues are used to run these programs.

Redevelopment Agency. The Pleasant Grove Redevelopment Agency was established to manage the City's urban renewal areas. Pleasant Grove currently has 3 of these areas: (1) the Gateway Community Development Area, and, (2) the 1300 West Community Development Project Area, and (3) the Grove Tower Area. Revenues are generated by the incremental tax revenue produced within those areas. These revenues are then distributed according to individual development agreements.

Swimming Pool. The City operates an outdoor swimming pool roughly from Memorial Day through Labor Day each year. Revenues are received through annual passes, day passes, swimming lessons, and concession sales. Additionally, funds are transferred from the General Fund each year to assist with the operation of the pool.

Library. While there is a Library department within the General Fund, some funds received by the Library are a result of federal funds, state funds, and private donations. In order to ensure these restricted funds are used for the purpose for which they are intended, they are accounted for in a separate fund.

C.A.R.E Tax. The Community Arts and Recreation Enhancement (CARE) Tax, helps to fund the improvement of community programs as well as infrastructure around parks.

Transportation Utility. The fund was established to provide for the maintenance, repair, and improvement of Pleasant Grove City streets. Revenues will be from a Transportation Utility Fee assessed to both residential and commercial utility accounts. The funds were reassessed in May 2023 after not being collected due to litigation.

Enterprise Activities

The City maintains the following utilities: Culinary Water, Pressurized Irrigation, Sewer, and Storm Drain. Each of these services is funded through user fees. As enterprise funds, the user fees are intended to cover the entire cost of providing these services, including personnel, operating costs, debt service, and an overhead allocation. The City makes use of rate studies to forecast projected needs to ensure adequate funds will be available to provide reliable services.

The City evaluates each utility rate every year. This annual evaluation involves the development of long-term capital and replacement plans, staffing plans and adherence to debt covenants. These principles as well as those included in the City’s “Budget Management Guidelines” are considered when establishing utility rates.

Included in the “Enterprise Fund” section of this budget document are five-year pro-forma projections for all utility funds. These projections assist staff to keep a long-term focus on both future operations and capital needs. The tables below give a history of these rates for Pleasant Grove City.

Culinary Water - Residential								
	Adopted				Projected			
	2021	2022	2023	2024	2025	2026	2027	
Base Fee	\$ 22.94	\$ 24.32	\$ 25.54	\$ 26.05	\$ 27.35	\$ 28.72	\$ 30.15	
Usage per 1,000 gallon								
0 to 5,000 Gallons

Basis of Budgeting

Consistent with Generally Accepted Accounting Principles, budgets for all governmental funds are prepared using the modified accrual basis of accounting. Budgets for enterprise funds are prepared using the full-accrual basis of accounting. These methods are consistent with our Comprehensive Annual Financial Report, which is issued approximately 180 days following the City's fiscal year end.

Financial Information

Consolidated Budget

Municipal budgets can be complicated. An annual budget consists of numerous departments and many different funds. The consolidated budget combines these numerous individual budgets into one document that can be viewed on one page. Because governmental funds and enterprise funds have a different basis of accounting, one consolidated budget has been prepared for governmental funds and one consolidated budget has been prepared for enterprise funds.

Governmental Funds

Governmental funds budget revenues and expenditures of \$72,985,264 for the 2023-2024 fiscal years. This is compared to a final 2022-2023 budget of \$77,092,032. This budget includes carryovers from FY2023, additional expenses for impact fee related projects and budget amendments.

Two other areas worth mentioning are transfers and overhead allocations. It is common practice for governments to transfer monies between funds in order to pay for certain expenditures in particular areas. For example, the City transfers monies from the general fund, and other governmental funds, into capital projects and debt service so those expenditures can be accounted for in those funds. The City also allocates a pro rata share of administrative costs to its enterprise funds. These fees cover the cost of management, legal, finance, insurance, facilities, etc. that can be appropriately allocated to the City's enterprise funds.

Enterprise Funds

The City's enterprise funds are prepared on a full-accrual basis as opposed to the modified accrual format of the governmental funds. Therefore, the enterprise fund budgets include depreciation and interest but not capital projects and principal payments. For the 2023—2024 fiscal year, the City's enterprise fund budgets forecast revenues of \$20,245,340 and operating expenses of \$14,465,541. The previous year's final budgeted revenues and operating expenses were \$18,759,094 and \$14,135,719 respectively.

Fund Balances

One unique aspect of government accounting is the segregation of activities into funds, with every fund maintaining its own fund balance. A fund's balance increases or decreases each year based on the activity of revenues and expenditures for that fund during the year. For most funds, it is anticipated that budgeted revenues will equal budgeted expenditures. However, there are times when the City may have a budgeted increase to the balances of certain funds or a planned use of previously accumulated balances in certain funds. These budgeted increases or decreases in fund balance are described briefly below.

Class C Road Funds

Class C road funds refer to the gas tax levied by the State of Utah. The State issues, as a grant, a portion of this tax revenue to local jurisdictions for the maintenance and repair of streets. Utah County levies a local option sales tax for transportation. As of June 30, 2023, the City had an estimate of \$1,616,968 of funds that had not been spent or allocated for projects. The reason the funds have not been spent is that the City's public works department is updating the road plan to complete large projects in the City.

Cemetery

The Cemetery has capital needs that will need to be addressed. Increases in fund balances will be used to cover the expenses associated with the current cemetery expansion project.

Dental

Surpluses in this fund will be saved in anticipation of the event of excessive premium increases in future years.

Cultural Arts

The City's Arts Council will periodically desire to fund performances that are in excess of annual appropriated expenditures. The balance in this fund is decreasing slightly to cover increased costs for performances and programs.

Library Grants

Each year the City's library receives donations and grants for various needs.

Capital Projects

Funding for general capital projects primarily comes from using surpluses created in the general fund. Once a year's general fund surplus is determined, that amount is transferred to capital projects. Supplemental requests for projects are submitted for consideration and approved based on need and funding ability. There is an estimated fund balance as of June 30, 2023 of \$38,413,016. The Cook Family Park/Pipe Plant Development will consume \$35,642,000 of this balance. The City is budgeting \$4,576,500 (\$1,500,000 unallocated) throughout the City for projects and equipment at this time.

Capital Equipment

Purchases of capital equipment are not funded at the same level each year. The City budgets to transfer a certain amount each year into the capital equipment fund in order to make these purchases. Therefore, the fund balance in the capital equipment fund will fluctuate year-to-year based on the capital equipment needs in any one given year. In 2024, the City anticipates the fund balance in capital equipment to increase by \$71,401 to cover future year purchases and leases.

Enterprise Funds

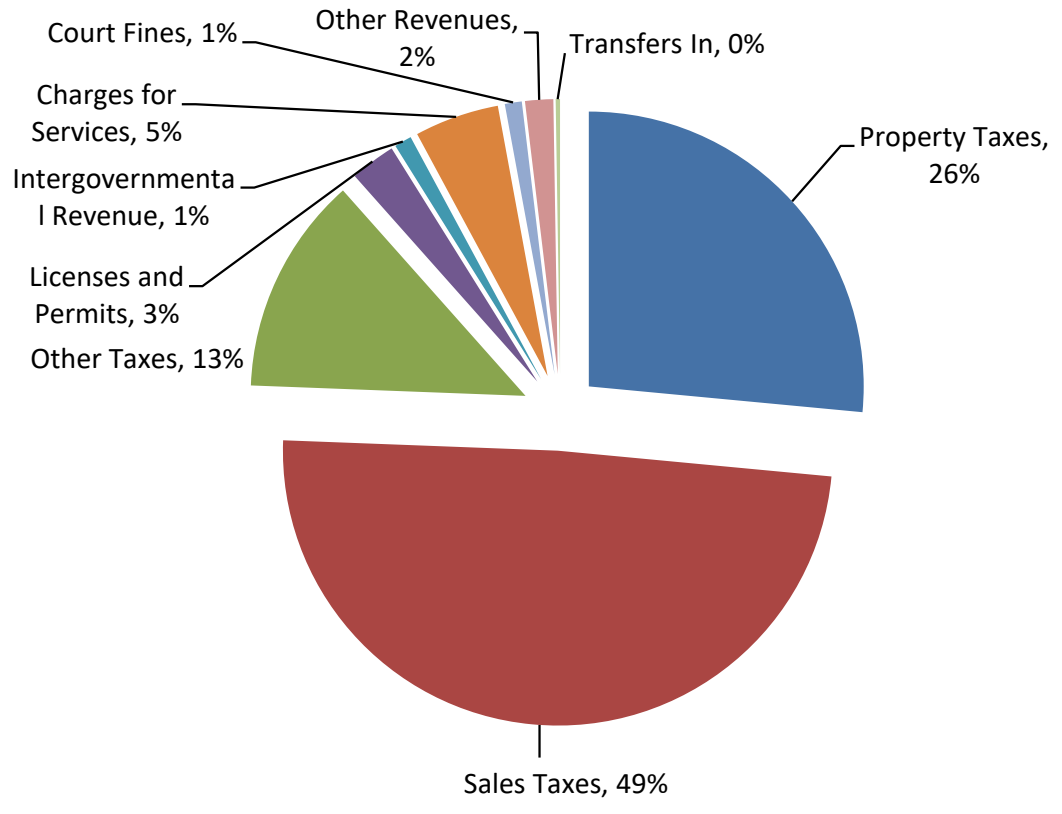

Enterprise funds are accounted for differently than governmental funds. Therefore, they do not maintain a fund balance with the same definition as governmental funds. The City goes through a process each year in determining the proper level of utility rates. The analysis bases utility rate on a number of factor such as: operational needs, personnel costs, debt service requirements, reserve targets, and infrastructure needs. Any funds unspent in a current year will be used to fund future capital projects.

General Fund

The General Fund pays for those functions typically associated with a municipal government (e.g. police, fire, streets, parks, recreation, and community development). The General Fund usually receives its revenues from taxes collected.

Fire

The Pleasant Grove Fire Department provides fire and emergency paramedic services to the citizenry. A highly trained staff of 18 full time and 9 certified part time firefighter paramedics responds to calls 24 hours a day from a single centrally located fire station. A legacy of service lasting over one hundred years drives us to provide the best fire and paramedic professional services possible. The Fire Chief continually evaluates the fire department service model and provides direction in our efforts of service excellence. The Pleasant Grove Fire Department is a model fire department with firefighters and paramedics who are proud and honored to serve.

Library & Arts

The Library and Arts Department is comprised of the following departments, boards, and commissions: Arts Commission, Historical Preservation Commission, Library and Library Board, and City Celebrations and Events. This department provides opportunities for the citizens to participate in local plays for adults and children, sing with a children's choir, play with a concert orchestra, enjoy listening to Concerts in the Park, tour and learn about the rich history of Pleasant Grove, take advantage of a growing vibrant library and its many children's and adult programs, and celebrate Strawberry Days and other city events. All of this is made possible by many volunteers and dedicated city staff.

Engineering & Streets

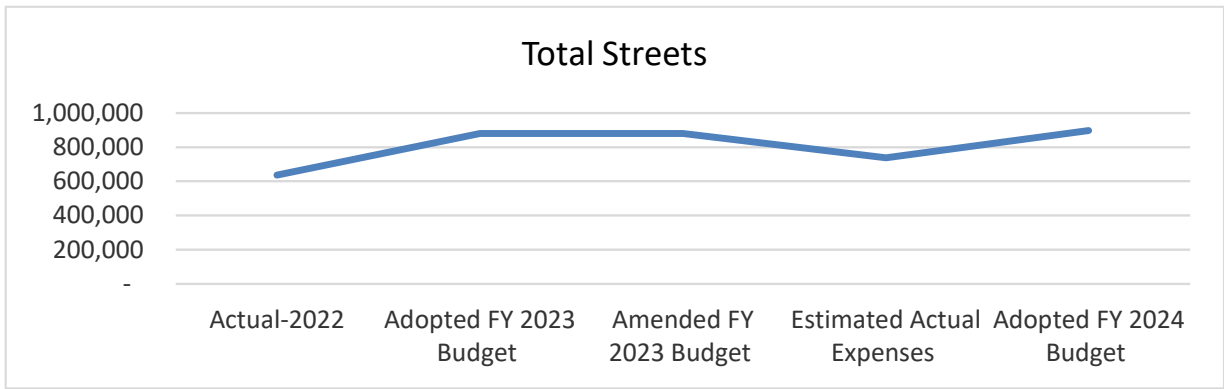

The Engineering Division of the Public Works Department provides professional engineering support (design, survey, drafting, traffic engineering development review, records maintenance, utility permits and inspection, and public information) to the City Administration, the Municipal Council, the Planning Commission, other City departments, and the public. The Engineering Division also provides administration, design, inspection, and construction management of Public Works capital improvement projects, professional transportation, engineering services, and traffic signal operations for the City.

The Streets division designs, builds, maintains, and preserves the city's streets, including the following: patch roads; fill trenches; inspect roads, sidewalks and improvements; chip sealing over lays; and broom, cinder and plow the streets. The division installs and maintains all road signs, trims trees to give intersections clear view zones and mows the shoulders of the road. The division also replaces sidewalk, curb, and gutter that are in poor condition (in conjunction with the public), as well as oversees the construction of new sidewalk, curb, and gutter.

Class C Roads Funds

The revenues in this fund come from the gas tax levied by the State of Utah. The State provides a portion of this tax revenue to local jurisdictions for the maintenance and repair of streets. Utah County levies a local option sales tax.

Special Revenue Funds

Certain City revenues are collected for a specific purpose and are accounted for in a separate fund, allowing the City to closely monitor revenues and expenditures of these specific activities. A Special Revenue Fund differs from an Enterprise Fund in that its revenues don't necessarily cover all the costs of a particular service.

E911

The City provides funding from the General Fund to pay for emergency operations. Central Valley Dispatch provides dispatch services for police and fire.

Transportation Utility Fee

The Transportation Utility Fund was established to provide for the maintenance, repair, and improvement of Pleasant Grove City streets. Revenues will be from a Transportation Utility Fee assessed to both residential and commercial utility accounts. Collection of the funds was suspended due to pending litigation, but was reinstated in May 2023.

Redevelopment Agency

The Pleasant Grove Redevelopment Agency was established to manage the City’s urban renewal areas. Pleasant Grove currently has 3 of these areas: (1) the Gateway Community Development Area, (2) the 1300 West Community Development Project Area, and (3) the Grove Tower Area. Revenues are generated by the incremental tax revenue produced within those areas. These revenues are then distributed according to individual development agreements.

Enterprise Funds

Like a private-sector business, Enterprise Funds (obtained from user fees) cover the entire cost of the services provided, including personnel, operating costs, debt service, and overhead. Unlike a business, an Enterprise Fund only covers the cost of providing the service and does not guarantee a profit.

Water & Sewer

The Sewer & Water departments are organized to provide safe, high quality, and reliable water and sewer service to residential, commercial, and industrial customers within Pleasant Grove City. The goal is to provide these services in an efficient and cost effective way, while maintaining facilities to meet current and future needs. The departments are committed to funding capital projects for new improvements and future replacement of facilities and equipment. To ensure that safe water is being supplied to our customers, the departments comply with all Utah State and federal health and water quality regulations.

	\$ 3,480,000

FY 2024 Capital Projects with Operating Impact Narratives

Water

Development/Special Projects – This fund is used for increasing capacity or completing a stretch of infrastructure when a development installs some of the infrastructure but either capacity needs to be increased or a final piece requires completion that is not part of the impact of the development. In most cases a development agreement is negotiated and executed. There are no future operational impacts from these projects. Occasionally, a reduction in cleaning and/or maintenance is realized.

Secondary Sites – The secondary water system has several locations that need upkeep and/or other aesthetic updates such as landscaping, roofing, painting, fencing, and maintenance. This fund will be used for that purpose. There are no future operational impacts from these projects.

Nathaniel, Canal to Tank – This is a waterline replacement project for pipe that has reached its useful life. Operational impacts will be fewer maintenance related service calls and repairs.

Fiber & Security - The water system has several locations where remote digital access would be beneficial to operate the system. Additionally, these sites should be secured. Fiber Optic communication has recently become available to the area and this fund will bring fiber to the site and connect to web to provide remote access to Water Operators. Operation impacts include quicker response times, increased efficiencies in power use, and decreased in-person service calls outside normal working hours. The communication fee is relatively small at \$7/month/site. Currently, radio communication is used that is unreliable is in need of constant repair.

Anderson Chlorinator

Adams Chlorinator The two sites will have chlorination added to the well at the source. Currently, chlorination is added manually to the tank. The amount of chlorine will be the same but the application will be automatic. There are no future operational impacts from these projects except enhanced employee safety and some efficiency increase in dosing accuracy.

Well Sites - The culinary water system has several locations that need upkeep and/or other aesthetic updates such as landscaping, roofing, painting, fencing, and maintenance. This fund will be used for that purpose. There are no future operational impacts from these projects.

City Backflow and Meters – The City has service connections on the water system similar to residential and commercial sites. However, not all City sites have Backflow protection and Metering devices. This fund is used to purchase and install Backflow and Metering devices at City owned locations. Large Backflow and Metering devices can be expensive due to size and retrofit constraints. There are no future operational impacts from these projects.

Wade Springs – Wade Springs infrastructure is aging in need of replacement. This fund will be used to perform some cleaning and replacement. There are no future operational impacts from this project.

Fire Hydrant – The City has approximately 6000 Fire Hydrants and this fund is used for replacement of aging infrastructure. There are no future operational impacts from these projects.

Battle Creek Turbidity – Battle Creek Springs has experienced turbidity during some precipitation events. The fund will install monitoring infrastructure at both the base of the springs and the top of the springs to detect and alert if turbidity reaches designated limits. Outside of a \$25 per month cellular charge for communications, there are no future operational impacts from this project.

Monson Tank and Redrill – There are existing tanks and an existing culinary water well at this site that have reached their useful life. Replacement will have no future impact on future operations as this is replacement in-kind.

Development/Special Projects	50,000
Vehicles/Equipment	143,000
	\$ 1,193,000

FY 2024 Capital Projects with Operating Impact Narratives

Sewer

600 West Center Street to 1100 North – There are significant defects in this portion of the Sewer and the City has responded to multiple issues. This project will replace the sewer pipe, manholes, and laterals. Replacing this infrastructure will reduce the City’s risk and the number of service calls and emergency responses. Operational impacts will include less frequent cleanings and staff time.

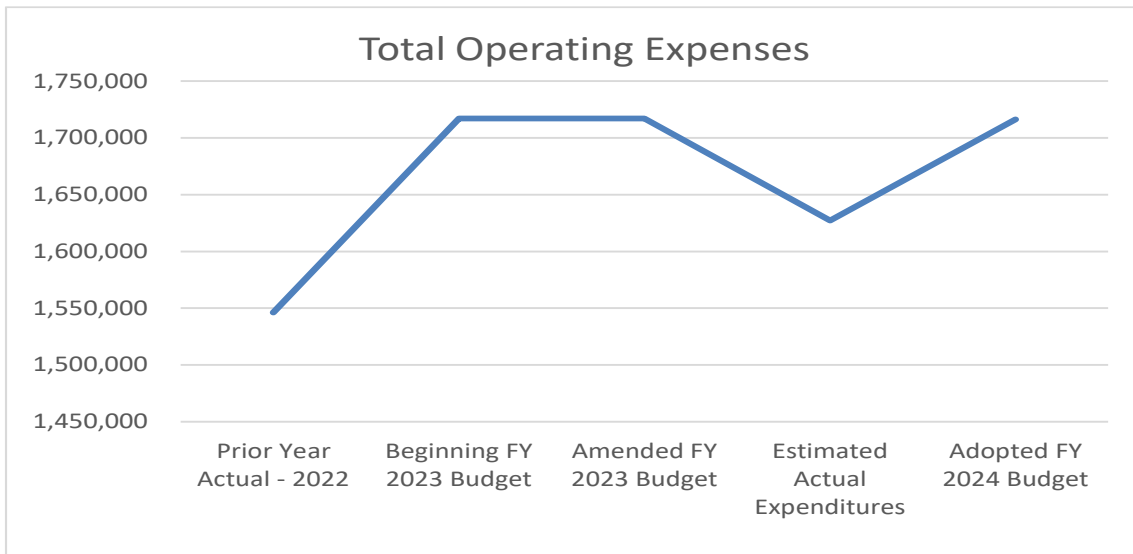

Development/Special Projects – This fund is used for increasing capacity or completing a stretch of infrastructure when a development installs some of the infrastructure but either capacity needs to be increased or a final piece requires completion that is not part of the impact of the development. In most cases a development agreement is negotiated and executed. There are no future operational impacts from these projects. Occasionally, a reduction in cleaning and/or maintenance is realized.

Vehicles/Equipment – This fund will be used to replace existing vehicles and equipment and not expand the fleet so no future operational impact is expected.

Storm Drain

The Storm Drain department implements Municipal Separate Storm Sewer Systems (MS4) Permit requirements for program 4 (construction site controls) and program 5 (post-construction site controls) in accordance with approved program descriptions, as well as inspects and performs oversight on all aspects of the construction and installation of storm sewer pipe, inlets, manholes, outfalls, and permanent water quality facilities. The department also maintains detailed inspection records, both written and electronically, and ensures that daily field reports are complete and accurate. The department also cleans and maintains the City-wide storm drain system.

FY 2024 Capital Projects with Operating Impact Narratives

Storm Drain

Development/Special Projects – This fund is used for increasing capacity or completing a stretch of infrastructure when a development installs some of the infrastructure, but either capacity needs to be increased, or a final piece requires completion that is not part of the impact of the development. In most cases, a development agreement is negotiated and executed. There are no future operational impacts from these projects. Occasionally, a reduction in cleaning and/or maintenance is realized.

1300 West 700 South to Mt View Lane – 1300 West Roadway was installed, and this fund was used to install pipe where an open channel existed. There are no future operational impacts from these projects. A reduction in cleaning and/or maintenance will be realized.

Lindon Cost Sharing Projects – Some of Pleasant Grove’s drainage channels flow into the adjacent City of Lindon. There are some projects performed by Lindon that a pro-rated share is a result of Pleasant Grove water. There are no current projects designated for this fiscal year, however, there are several large projects recommended over the course of the next several years. There are no future operational impacts from these projects.

100 W 400 N and 480 N Sumps – There is some nuisance drainage on 100 West and this small amount is intended to remedy the standing water. There are no future operational impacts from these projects.

1300 East Storm Drain – 1300 East Roadway was reconstructed and the existing Storm Drain pipe was in poor condition and undersized. With the roadway reconstruction, the Storm Drain pipe was replaced. There are no future operational impacts from these projects.

Sanitation

Pleasant Grove City offers both solid waste and recycling services for Pleasant Grove residents. Solid waste is collected weekly, while recycling is collected every other week. The City contracts the collection services through a third-party vendor. The contract is currently with Republic Services.

Recreation	Upgrade and remodel Manila Park Baseball Tower	25,000	25,000
Recreation	Emergency generator	50,000	50,000
Recreation	Wave Drowning Detection System	10,140	-
Total Capital Requests		\$ 4,615,219	\$ 1,756,030

Capital Contingency			
Department/Division	Description	Recommended Funding	
Recreation	Pool Leveling Project	\$	650,000
	Project(s) Contingency		255,470
Total Capital Contingency		\$	905,470
Total Capital Funded		\$	2,661,500

FY 2024 Capital Projects with Operating Impact Narratives

Administration

G Mountain (\$100,000) – Support of G Mountain Restoration.

Grant Consultant (\$100,000) – Hire a grant consultant to retain funding for infrastructure projects in the community.

Website Redesign (\$50,000) – The city’s website is a resource for city leadership and staff to better communicate with the public, and it serves as a resource for residents to better understand what services the city provides. Under the direction of the Council, staff will work with a government website consultant to build a new city website that is clean, user-friendly, and able to meet the city's needs.

Survey Software (\$12,000) – To better understand the needs of residents, city staff will utilize a survey software to automate text messages and surveys to gain valuable information from the community. The software provides a user-friendly dashboard that automatically analyzes the response data from residents, and this data will be used by staff to evaluate current and future services, programs, and events.

AED (\$5,000) - An AED, or automated external defibrillator, is used to help those experiencing sudden cardiac arrest. It's a sophisticated yet easy-to-use medical device that can analyze the heart's rhythm and, if necessary, deliver an electrical shock or defibrillation to help the heart re-establish an effective rhythm. The plan is to purchase up to 5 units to be placed at City Hall, Public Works, Library, and the Recreation Center.

Cemetery

Dump Truck (\$70,000) – The 1992 Ford Dump Truck has low mileage but high use. The hydraulics are wearing out, and the front end is gone due to snowplowing. The cemetery has an additional dump truck, but multiple burials on the same day are not uncommon. If the hydraulics failed during a burial, it would cause delays in burials.

Mower (\$16,000) –The repairs that are needed are extensive, and the cost estimate is more than the mower’s worth.

Custodial

Staff Vehicle (\$40,000) – A dependable vehicle is needed to complete the park cleaning. The vehicle could be a smaller-style truck.

Facilities

Utopia Installation at Parks and Facilities (\$200,000) – Installation of Utopia fiber lines into city facilities that are adjacent to Utopia services. This will allow communication for existing and future security and maintenance systems.

ADA Doors installed at City Hall & Community Development (\$20,000) – The current doors are heavy and would be difficult to open for someone confined to a wheelchair.

Install Ceramic Tile at Various Restrooms (\$22,472) – Install ceramic tile in restrooms at Mahogany, Hill Park, Manila Creek & Shannon Ballfields. The new flooring will improve appearance and be easier to keep clean.

Replace Discovery Park Lights with LED Lighting (\$620,000) – The current metal highlight bulbs require additional power to start up. Once running and operational, they require 20 minutes to cool down and restart. Replacement of the current bulbs would save power and reduce maintenance issues with ballasts and bulbs.

Replace Shannon Field Lights with LED Lighting (\$600,000) – The current metal highlight bulbs require additional power to start up. Once running and operational, they require 20 minutes to cool down and restart. Replacement of the current bulbs would save power and reduce maintenance issues with ballasts and bulbs.

Rodeo Restrooms & Concessions Building (\$40,000) – Demolition of the existing, outdated concession stand and restrooms at the rodeo grounds. Construct new concession stand and restrooms to bring the facility into health and code compliance.

Fire

Ambulance (\$380,000) – Replacement of one of the two aging ambulances. The ambulances are 7 years old and out of warranty. Patient boxes are over 20 years old, and finding parts for repair or replacement is difficult.

X-Series Zoll Heart Monitor (\$50,000) - X-Series Zoll Heart monitor to replace obsolete E-Series.

Staff Vehicle (\$60,000) - This vehicle replaces a 2010 staff vehicle.

Air Pack Bottles and RIT Bag (5) (\$10,000) – The bottles are backup for air packs used for house fires. The RIT bag is used for injured/trapped firefighter(s) that have an air pack on.

Water Rescue Suits (2) (\$5,000) – Replace two twelve-year-old rescue units. The suits are used for ice rescues.

MedaCode Manikin (\$5,000) – The mannequin is used to practice paramedic skills like IV/IO, advanced airway, and defibrillation. The mannequin would replace our current one, which is fourteen years old.

Slide Bed for Fire Marshal Vehicle (\$2,000) – The equipment provides access to equipment in the truck's bed without climbing in and out of bed.

Library

Program Tables (\$5,000) – The current inexpensive tables are breaking and unable to be repaired.

Outdoor Patio Furniture (\$4,000) – This would be a place where staff and patrons could sit and enjoy lunch. It could also be used for summer programs.

Parks

Staff Vehicles (2) (\$108,000) – Replacement of a 2003 GMC truck and purchase of a new one for added parks position.

Toro 4000 Mower (\$100,000) – Replace an eight-year-old mower with the purchase of the Toro 4000.

48" Grand Stand Mower (2) (\$21,058) – The goal would be to replace the two oldest mowers that have substantial hours and are starting with substantial maintenance issues.

Polaris 4-wheeler (\$10,089) – Polaris 570 4-wheeler equipped to push snow. This would replace a 2012 4-wheeler.

Polaris 4-wheeler (\$8,679) – Polaris 570 4-wheeler for ballfield maintenance.

Ball Field Conditioner (\$30,000) – The current conditioner is over 15 years old. The best solution would be to have a conditioner at each sports complex, eliminating the need to drag a trailer daily.

Replace Mahogany Park Tables (3) (\$4,200) – The current rubber-coated tables have been burnt and cut by vandalism. The proposal is to replace tables with aluminum.

Table & Chairs for Events (\$8,000) – Purchase 200 chairs and 20- 8 f. tables for city events. An enclosed trailer was purchased last year that could house the table & chairs.

Automated Sprinkler Control Boxes City-wide (\$205,000) – City-wide sprinkler control could be operated remotely from a computer or phone; the automation would also be valuable for weather control watering. Staff will look at applying for a Central Utah Water Smart Water Grant.

Discovery West Playground Replacement (\$150,000) – The playground is in desperate need of replacement.

Shade Covers for Discovery Ball Diamonds (\$300,000) – Provide spectators shade and safety from foul balls.

Kubota Tractor L-47 (\$60,000) – The current tractor is 22 years old and in need of replacement. The proposed request for the L-47 is a larger model with backhoe and swiveling seat components.

Enclosed Trailer (\$9,000) – The trails trailer is too small to carry all equipment needed to maintain the trail system.

Auto Ball Field Painter (\$60,000) – The robot is programmed to paint lines for baseball, soccer, and football fields.

Shade Covers for Shannon Ball Diamonds (\$300,000) – Provide spectators shade and safety from foul balls.

Police

Ammunition (\$10,000) – Purchase training ammunition.

Crime Scene Photography Equipment (\$10,000) – The current equipment is outdated and is in need of replacement.

Flock LPR Cameras (\$19,800) – License plate recognition systems (LPRs) use optical character recognition (OCR) algorithms to allow computer software to read vehicle license plates. The system would be used to help solve various crimes committed in the city.

IA Pro (\$10,500) – Industry standard software to track internal affairs cases and officer complaints. This software would assist the department in being compliant with its own policies.

Staff Vehicle (\$35,000) – Purchase one of the city's 2019 vehicle lease returns to be a backup when other vehicles are in the shop.

Animal Control Officer Vehicle (\$15,000) – The 2010 Animal Control Vehicle needs to be replaced. Purchase one of the city's 2019 vehicle lease return to repurpose. The department will sell the 2016 Ford Transit Wagon and use the proceeds toward purchasing the ACO vehicle.

Recreation

Rooftop HVAC Units (\$350,000) – The Recreation Center has 21 Roof Top HVAC Units. The estimated life expectancy on those units is 15 years. Each unit varies in replacement cost. It would be prudent to start replacing 2 units a year, beginning with units in the poorest condition.

Lobby Project (\$150,000) – An amount of \$30,000 was budgeted two years ago to change the front desk configuration. The new project design is substantially more comprehensive and will greatly benefit the facility.

Security System Upgrade (\$22,500) – The current system only includes 4 cameras for both inside and outside. The system improvements would provide more visibility throughout the facility to watch for theft, first aid incidents, and other issues during programs.

Upgrade & Remodel Manila Park Baseball Tower (\$25,000) – Due to the tower's age, many items inside where staff operates need to be replaced. The remodel would include new windows, desks, chairs, flooring, lighting, and paint.

Emergency Generator (\$50,000) – The recreation center is often discussed as being a potential emergency shelter. It would be important to provide power in an emergency.

Wave Drowning Detection System (\$10,140) -This reliable, portable, and user-friendly system dramatically reduces the risk of a drowning event being missed.

Pool Leveling Project (\$250,000) – Due to the difficulty of leveling the pool without messing with the pool drain elevations, engineers are looking at placing what could be described as a boardwalk that will go around the entire perimeter of the pool. This boardwalk will allow the pool to drain properly while using the boardwalk feature to correct the overflow/ settling issues. This approach will allow us to correct the issue without undergoing major digging or invasive construction in the pool area.

Impact Fees

State law allows cities to impose impact fees on new development for parks and roads to pay for all or a portion of the cost of providing the services to the new development.

	Prior Year Actual - 2022	Beginning FY 2023 Budget	Amended FY 2023 Budget	Estimated Actual Expenditures	Adopted FY 2024 Budget

Glossary of Terms

Ad Valorem Tax: A tax calculated “according to the value” of property. Such a tax is based on the assessed valuation of real property and, in certain cases, on a valuation of tangible personal property. The tax is a lien on the property enforceable by seizure and sale of the property.

Assessed Valuation: The appraised worth of property as set by a taxing authority through assessments for purposes of ad valorem taxation. The method of establishing assessed valuation varies from state to state, with the method generally specified by state law.

Balanced Budget: Defined as anticipated revenues equally expenditures.

Bond: A security that represents an obligation to pay a specified amount of money on a specific date in the future, typically with period principal and interest payments.

Capital Improvement Plan (CIP): The plan is generally a 5-year plan of major, nonrecurring facility and infrastructure expenditures that expand or improve the City’s physical assets.

Capital Project Fund: Accounts for the financial resources to be used for the acquisition or construction of the major capital facilities of the government.

Debt Service: The amount necessary to pay principal and interest requirements on outstanding obligation for a given year or series of years.

Debt Service Fund: Accounts for accumulation of financial resources for the payment of principal and interest on the City’s general obligation debt.

Enterprise Funds: Account for operations that are financed and operated in a manner similar to private business enterprises.

Expenses: Costs incurred for personnel, operational, non-operating, capital and transfers out.

Fund Balance: The difference between assets and liabilities reported in a fund.

General Fund: The government’s primary operating fund. It accounts for all financial resources of the general government, except for those required to be accounted for in another fund.

General Obligation Debt: Debt that is secured by a pledge of the ad valorem taxing power of the issuer.

Revenues: Monies collected to provide services and meet operational needs.

Revenue Bonds: Bonds whose principal and interest are payable exclusively from a designated revenue source or enterprise fund.

Special Revenue Fund: Accounts for resources legally restricted to expenditures for specified for current operating purposes and for the enforcement of special services and activities.

Truth in Taxation: In order to understand property tax in Utah it is necessary to understand a section of Utah Law known as “Truth in Taxation.” The County is responsible for administering property taxes and each June it submits to the cities a certified tax rate that would generate the same amount of revenues as the previous year plus any new growth. The certified tax rate does not provide for additional tax revenue to increased valuation of existing property. If the City choose to adopt a tax rate higher than the certified rate, state law has very specific requirements.
