How to Cover a Composition Notebook with Fabric
by ChicScratch

STEP 1:

Fold the inside tabs in half and press. Vertical of fabric. It will look long and skinny, sew a line on the folded sides. Other side will have raw edges.

STEP 2:

Make a sandwich. First layer in Muslim fabric. Next layer is cover print. Pretty side facing you. Next layer is side tabs. Raw edge to raw edge. Place on right and left. Next is inside-place pretty side down.

STEP 3:

Sew all the way around but leave four inches in bottom open.

STEP 4:

Turn right side out and see if it fits ok. I rounded my corners. Just use scissors to round fabric by cutting it diagonally across the outside corner stitches.

STEP 5:

Press well and close up opening. You may also topstich the entire cover.
