

### PROJECT OVERVIEW

Pleasant Grove City and Cedar Hills will be reconstructing the 4000 North/9600 North (Harvey Blvd) roadway from Harvey Park to Canyon Road. The design is in the early stages. This work will include widening and straightening the road; replacing the existing 4-way stop with a roundabout at the 4000 West intersection; adding or reconstructing sidewalks, curbs, and gutters; adding culinary waterline; adjusting existing ditches and irrigation infrastructure; and adding storm drainage infrastructure to accommodate surface runoff.

### SCHEDULE

Construction: Expected Summer/Fall 2024 (pending design progress)

Workdays: Monday – Friday, 7 a.m. – 6 p.m. (with possible night and/or weekend work)

### ANTICIPATED IMPACTS

Traffic along the roadways may experience temporary closures and/or restricted access. Expect occasional delays and single-lane traffic within the work zones; please use alternative routes when possible. Also, residents nearby will likely experience equipment noise, dust, and vibrations. Home/property owners will be notified in advance of any scheduled service or access interruptions.

### STAY INFORMED

If you live along or near any of the highlighted areas on the project map, you will experience impacts during this project. We encourage you to sign up for the weekly project email updates. Just send an email to [pgch4000n@gmail.com](mailto:pgch4000n@gmail.com) and enter "PGCH 4000 North Updates" in the subject line.
